

## Getting Ready for Boat Show Season

Dear Customers,

If you missed this newsletter in the last month, it was because our marketing team was also enjoying a well-deserved summer vacation.

Now back to work full speed, we are happy to share with you the latest news from the Böning world.

Beginning with our September agenda, we are ready to take part in 3 important events in Europe.

Then, we want to share with you recent project references, that weredelivered in the past months.

Finally, the technical session of this newsletter will present an upgrade possibility for engine monitoring and alarm system.

Topics:

- 1- [Event Schedule](#)
- 2 - [Welcome aboard: Felipe Mendes](#)
- 3 - [Recent projects](#)
- 4- [Demonstration Day @ Böning USA](#)
- 5- [Technical session](#)
- 6 - [Böning 45 years](#)

We hope you enjoy the reading.

## Events Schedule

**SMM-Hamburg** will finally occur again after 4 years from September 6th to 9th. We look forward to many interesting meetings and conversations with customers, suppliers, friends, and business partners on our stand **Hall B6 Stand 216**.

This year **Cannes Yachting Festival** will take place from September 6th to 11th in the beautiful Mediterranean city Cannes in the Côte d'Azur in the South of France. Hope to meet you there!

Our Italian team from BÖNING Italia SRL will be pleased to welcome you to our booth **PAN 306**.

Genoa, 22<sup>nd</sup>-27<sup>th</sup> September 2022

in Genoa/ Italy. This international boat show has become more and more important both internationally and also regionally in the Mediterranean area. BÖNING will be present again and is looking forward to meeting you on our **stand TS19**

---

## Welcome aboard Felipe Mendes

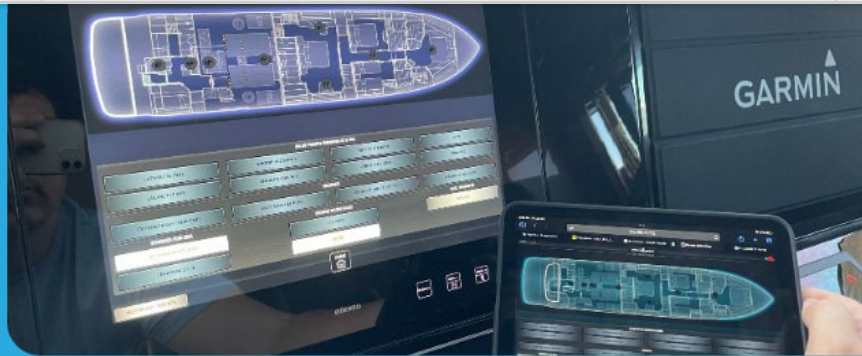

Felipe Mendes joined the Böning USA Team as a project and sales engineer, to help customers define and specify Böning systems for their vessels, from simple to complex. Felipe has an Ocean Engineering degree, and strong technical background.

Phone: +1-561-372-9894

---

## Recent projects

## Refit Princess 85

AHD-CPG installation and Böning app

## Refit Yacht Delta Marine 156'

Full vessel monitoring and automation

---

**Demonstration Day @ Böning USA**

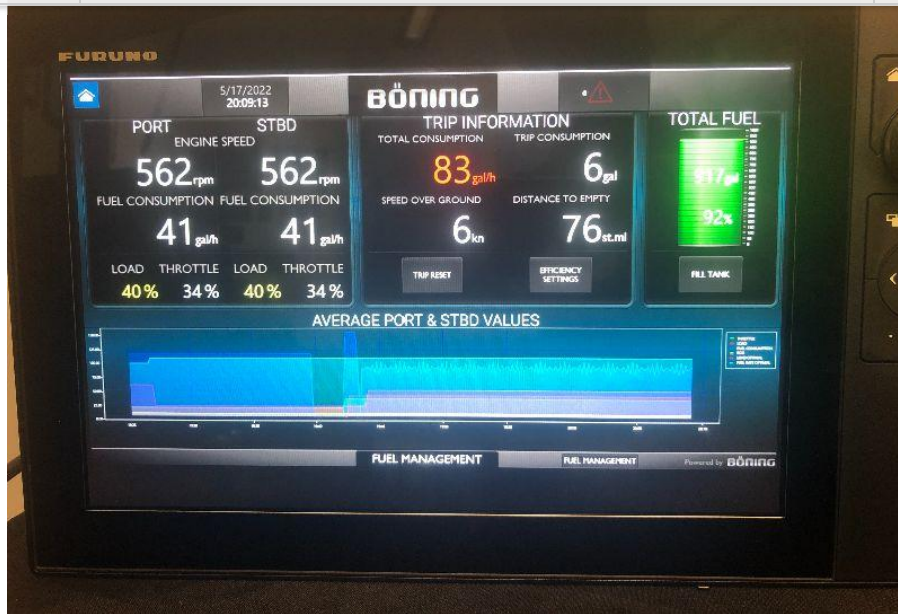

In June, we had a pleasant day demonstrating to our dealers and integrators, the configuration steps and performance of multifunctional displays (MFDs) from Garmin, Raymarine, Furuno and SimRad, when connected to the Böning systems.

Böning not only has NMEA 2000 certified devices but also has the new HTM5 interface for the MFDs allowing a Böning app to be created within the plotter display menu.

Our customers had the opportunity to touch and test themselves our products, as well as ask technical questions.

If you are interested in being invited to the next demonstration day, please send us an e-mail.
